Status Code: 200

Content: 新创建游戏的GameId

示例

Python

```
import requests

url = "http://106.75.33.221:10001/api/game"

payload = "{\"Map\":\"RectSmall\"}"
headers = {
    'Content-Type': "application/json",
    'Cache-Control': "no-cache"
}

response = requests.request("POST", url, data=payload, headers=headers)

print(response.text)
```

JavaScript

```
var settings = {
  "async": true,
  "crossDomain": true,
  "url": "http://106.75.33.221:10001/api/game",
  "method": "POST",
  "headers": {
    "Content-Type": "application/json",
    "Cache-Control": "no-cache"
  },
  "processData": false,
  "data": "{\"Map\":\"RectSmall\"}"
}
```

```
data: {\Map\:\RectSmall\}
```

```
}

$.ajax(settings).done(function (response) {
  console.log(response);
});
```
